### Switching Banks from the Main Unit

1. **With one of the channels [CH1]–[CH4] selected, hold down the [PANEL] button for approximately one second.**

   The selected [CH1]–[CH4] button blinks, and the bank switches between BANK A and BANK B. When BANK B is selected, the [PANEL] button blinks slowly.

* You can't switch banks while PANEL is selected.

### Switching Banks from a Footswitch

If you connect a footswitch (sold separately: BOSS FS-6, FS-7, or FS-5L) as shown in the illustration below, you can use your foot to switch between BANK A and BANK B, and between CH.1 and CH.2.

* Pin assignment of FOOT CONTROL jack

![Footswitch connection diagram]

If a footswitch (sold separately: FS-SU) is connected to the rear panel VOLUME jack or the FX jack, you can use it to instantly switch between BANK A and BANK B.

### Switching Banks from a GA-FC

1. **With one of the channels [CH1]–[CH4] selected, hold down the [PANEL] switch for approximately one second.**

   The selected [CH1]–[CH4] button blinks, and the bank switches between BANK A and BANK B. When BANK B is selected, the [PANEL] button blinks slowly.

* You can't switch banks while PANEL is selected.

### MEMO

If a footswitch (sold separately: FS-SU) is connected to the rear panel VOLUME jack or the FX jack, you can use it to instantly switch between BANK A and BANK B.

### Restoring the Factory Settings

Here's how the settings stored in the KATANA can be returned to their factory-set condition (factory reset).

1. **While holding down the [PANEL] button, turn the power on.**

   Each of the EFFECTS buttons continues blinking consecutively from the left. When the blinking stops, all of the KATANA’s settings return to the factory-set state.

* It takes approximately 30 seconds for the factory reset to be completed. Don’t turn off the power while the factory reset is in progress.
