Thank you for choosing the Roland SR-JV80-07 "Super Sound Set" wave expansion board.

Your new expansion board not only gives you all the Waveforms, Patches and Rhythm Sets originally provided on cards 01 through 08 in the SO-PCM1 Series Sound Library (except for 04), but also includes completely new Patches created by combining the use of multiple SO-PCM1 Series cards.

In addition to the pianos, guitars, brasses, and drum sections that are essential for the Pop scene, there are also numerous other Waveforms offering traditional favorites such as banjos, mandolins, steel guitars and accordions. Moreover, a good collection of organs, harpsichords, orchestra hits, and harps (with typical performance techniques represented) allows you to readily cover classical music as well.

● **Waveforms: 255 Kinds**

Most of the Waveforms that made the SO-PCM1 series as popular as it was, such as piano, guitar, brass, drum section, organ, harpsichord, orchestra hit, harp, banjo, steel guitar and accordion are included.

The board provides almost all the Waveforms that were in the SO-PCM1 Series Sound Library (except for 04). Some of them may sound slightly differently than the SO-PCM1 Series cards did, however. (The Waveforms of the SO-PCM1-04 "Grand Piano 1" are in the JV-90/1000 /1080 and XP-50's internal memory.)

● **Patches**

255 kinds designed for the JV-1080 & XP-50; another 220 for the JV-80/880/90/1000.

● **Rhythm Sets**

Eight kinds designed for the JV-1080 & XP-50; another two for the JV-90/1000.

The Rhythm Sets in this expansion board cannot be used with the JV-80/880 or JD-990.

■ **INSTALLING THE EXPANSION BOARD**

\* Turn off your instrument.

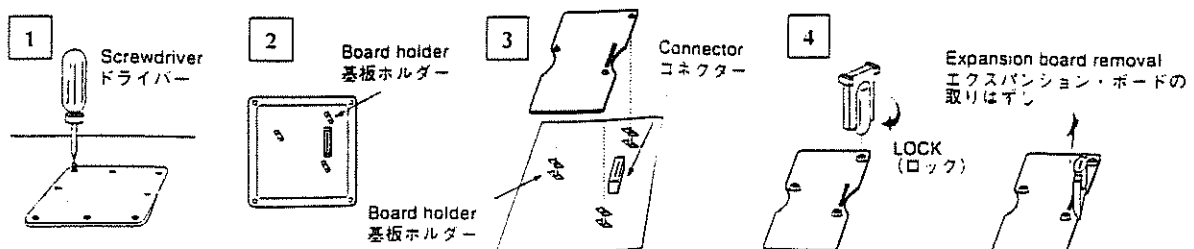

1. Remove the cover located on the bottom (or top) of your instrument.
2. Check that the plastic board holders are positioned as shown. Rotate them if necessary.
3. While positioning the holes on the board over the board holders, carefully insert the connector on the board into the socket on the instrument. Make sure the connector is securely connected, and that all three board holders project through the holes.

4. Use the supplied Installation Tool to turn the holders in the LOCK direction, so the board will be fastened in place.

(To remove the Expansion Board, turn the board holders in the UNLOCK direction, and lift up the board using the provided tool. Remove the board and secure the cover plate.)

5. Check if the Expansion Board is correctly installed.

If the "EXP" display cannot be selected (doesn't appear) in the Waveform Selection Screen (refer to the owner's manual of the instrument you use), remove the Expansion Board and install it properly.

57	CleanEG A	117	Bs/Musette 1	177	Snappy SN	237	REV Hit Dim		
58	CleanEG B	118	Bs/Musette 2	178	Cross SN	238	REV Hit f		
59	CleanEG C	119	Bs/Musette 3	179	Crisp SN	239	REV Stacc p		
60	Dist Gt p A	120	Bs/Master	180	Brash SN	240	REV Stacc f		

Waveforms in the list which have "REV" as part of their name are designed to play in reverse when sounding. However, on the JD-990, they will instead be sounded in the forward direction, since the instrument does not support reverse playback.

リストの中で、名前に"REV"が付いているウェーブフォームはリバーズ（逆方向）再生で発音するようになっていますが、JD-990ではリバーズ再生ができないため、正方向再生で代用して発音します。

- Refer to the owner's manual for your instrument for specific instructions on how to play Patches on the expansion board. On the JV-80/880 and JD-990, a "Load" of the Patches needs to be performed.
- On the JV-80/880/90/1000, you can not select the Patches which are designed to be used with JV-1080 and XP-50.
- On the JD-990, you can use Patches designed to be used with the JV-80/880/90/1000 if you "Convert Load" them first. However, such Patches will sound slightly different than they would if played on the JV-80/880/90/1000.

- エクスパンション・ボードのパッチを発音させるときは、使用機器の取扱説明書にしたがって、実行してください。JV-80/880, JD-990では、パッチのロードを実行する必要があります。
- JV-80/880/90/1000では、JV-1080, XP-50専用のパッチを選ぶことはできません。
- JD-990で、JV-80/880/90/1000専用のパッチをコンバート・ロードして使用することができます。その場合、JV-80/880/90/1000で使用したときの音色とは多少異なります。

- Refer to the owner's manual for your instrument for specific instructions on how to play Patches on the expansion board.
- On the JV-1080 and XP-50, you can not select only the Patches which are designed to be used with the JV-80/880/90/1000.

- エクスパンション・ボードのパッチを発音させるときは、使用機器の取扱説明書にしたがって、実行してください。
- JV-1080, XP-50では、JV-80/880/90/1000専用のパッチを選ぶことはできません。
