1. In track play/write mode, the display shows the measure number, but you can press the [FUNCTION] button and press the WRITE/NEXT button to enter the number of the measure you want to recall (0–99).

2. From the OUTPUT jack and PHONES jack. Each time this button is pressed, steps advance each time a trigger pulse is received at this jack. (such as the TR-09). If a plug is inserted into this jack, the TB-03 is disconnected from its internal clock, so that its clock becomes independent. This supports OCT/V (Hz/V is not supported). This turns the power on/off.

3. If you handle batteries improperly, you risk explosion and fluid leakage. Make sure that you carefully follow the instructions about batteries.

4. Do not use a “stereo mini-plug” cable; it won't work correctly.

5. What is D.C. (Da Capo)? What are patterns and tracks?

6. As described in “Recalling a measure number” (note), you might hear some sound when switching the unit on/off. However, this is normal and does not indicate a malfunction.

7. The backup files are located in the “BACKUP” folder of the “TB-03” drive. The display shows the step number; you can use the [VALUE] knob to enter performance data into the steps.

8. While holding down this button, you can use the [WRITE / NEXT] button to select different measures (0–99).

9. The backup files are located in the “BACKUP” folder of the “TB-03” drive. The display shows the step number; you can use the [VALUE] knob to enter performance data into the steps.

10. The backup files are located in the “BACKUP” folder of the “TB-03” drive. The display shows the step number; you can use the [VALUE] knob to enter performance data into the steps.
